FURNITURE AFTERCARE

EVERYTHING YOU NEED TO KEEP
YOUR FURNITURE LOOKING GREAT

THANK YOU FOR CHOOSING
SUNS LIFESTYLE

WE WANT OUR
PRODUCTS TO GIVE
YOU MANY YEARS OF
ENJOYMENT IN
THE SUNSHINE

THANK YOU

Our high-quality range of contemporary pergolas and outdoor furniture are designed in Europe, using robust materials that are made to last.

Each innovative product is created with style, comfort and relaxation in mind. Designed for a life outdoors, our furniture is fully weatherproof and low maintenance so you'll have more time to enjoy your outdoor space and less time worrying about changes in weather.

And for peace of mind, we offer a 5-year warranty on our pergolas and outdoor furniture.

IN THIS GUIDE, YOU'LL FIND EVERYTHING YOU NEED TO KEEP YOUR FURNITURE LOOKING GREAT SEASON AFTER SEASON.

To get the best results, we encourage you to read our care tips thoroughly. We only use easy to clean, weatherproof materials. Natural components (such as teak) will change colour slightly over time, this is part of its natural properties and we think adds to the charm of teak furniture. Whilst all SUNS Lifestyle products are designed to stay outside all year round, placing them inside – at times when you're not using them – will only result in a longer lifespan.

SHARE, TAG & WIN

We love to see how you use and enjoy SUNS Lifestyle products. Every month we giveaway a full set of cleaning products to our favourite Instagram post. For your chance to win, take a photo of your SUNS Lifestyle product(s), share it on Instagram, tag us and use the hashtag #SunsLifestyle. We'll select our favourite at the end of every month.

SUNS LIFESTYLE
PRODUCTS ARE
DESIGNED TO STAY
OUTSIDE ALL
YEAR ROUND

Our high-quality range of contemporary outdoor furniture and pergolas are designed in Europe and produced using the best durable materials for a life outdoors, providing many years of enjoyment in all seasons.

WATER REPELLENT CUSHIONS

You can't always be on time to take your cushions inside for every change of weather. Our water repellent cushions can be used within hours of a downfall.

ALUMINIUM

SUNS Lifestyle uses robust, industrial-quality aluminium to ensure solid construction. Our powder coating finish adds a beautiful look and provides an extra-long lifespan.

FAST DRY FOAM™

Fast dry foam™ has an open cell structure that does not retain water, and enhances air circulation this allows rainwater to run through it easily.

WOOD

SUNS Lifestyle FSC-certified teak wood is sustainably sourced, long-lasting and designed to withstand harsh weather conditions.

TEXTILENE

Textilene is a strong, stable, weatherproof, coated nylon material which is durable and easy to clean.

ROPE

Next to its elegant looks, strong, durable and weatherproof ropework offers excellent outdoor properties.

SENSOTEX

This innovative, in-house developed textilene feels like fabric but has stable outdoor properties.

SUNPROOF™

This premium material is completely weatherproof, extremely colourfast, easy to clean and wonderfully soft.

Each innovative product is created with your style, comfort and relaxation in mind. Our products are fully weatherproof, low maintenance, mould-proof and UV resistant, so you'll have more time to enjoy your outdoor space whatever the weather.

CLEANING & CARE

To clean and maintain your SUNS Lifestyle products, we recommend using SUNS Shine Cleaners and Protectors. These care products are optimised and safe to use on your product. Visit our website for more product information.

We do not recommend the use of aggressive cleaning agents or abrasives. Avoid placing your product under, for instance, a 'protective' cover; this can result in permanent stains due to weathering, suffocation, or mould formation. Be careful with fire, hot materials, oils and fats near your garden furniture. Remove any spilt liquids, food, bird droppings and wet leaves as quickly as possible.

LOOKING AFTER TEAK

We love teak. Not only is it naturally mould and insect-resistant thanks to its inherent oils, but this honey-coloured hardwood complements industrial aluminium accents perfectly. We only use high grade teak for our products, it weathers beautifully over time and, given the right amount of care, will last for years to come. When you receive your furniture, let the teak breathe for 24hrs before applying a wood protector for the best start to life outdoors.

Once your furniture has enjoyed a few more seasons outdoors we'd recommend gently sanding the top with fine-grade sandpaper, brush away the residue and treat with our

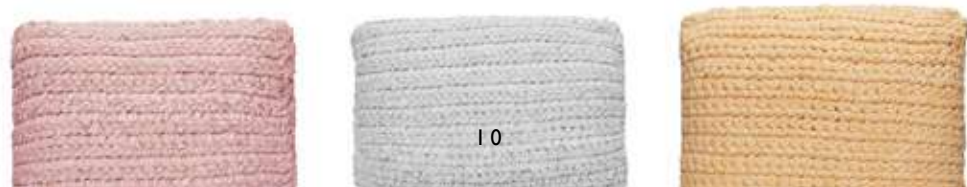

SUNS Lifestyle Wood Aftercare solution. A small roller and paint tray works best here. Simply apply and leave to dry. Depending on the weather, you may choose to coat your furniture more frequently to prevent the honey tones turning to the warm grey that is characteristic of teak. This is purely personal preference, the beauty of teak is that it can be left untouched; changing colour naturally or brought back to 'new' anytime with the above care and treatment. Some customers love the natural grey as it is signifies good quality teak, others prefer to maintain the newer look. To keep your teak looking like new, you only need to treat it twice a year.

Whatever your preference and for long-lasting quality, we recommend using SUNS Lifestyle Wood Aftercare to maintain your teak furniture. (See Page 15)

CLEANING & CARE

CUSHIONS

If you want to wash your cushions, carefully read the washing instructions or use the products from our SUNS Shine care range. The cushions are water repellent, but with prolonged exposure to water the inner cushion can still become wet. Ideally keep the cushions dry and remove excess water after a heavy shower. Avoid prolonged placement of objects/accessories on the cushions to prevent discolouration. Over time cushions can become softer, which results in a slight wrinkle formation. The quality of the cushions can be retained by exchanging their places, plumping them and keeping them clean.

CLEANING & CARE

PERGOLAS

These models require very minimal maintenance. The frames and gutters can be washed with gentle household cleaning products and a jet wash can also be used.

We recommend checking pergola gutters regularly to avoid build up, keeping pergolas functioning like new.

TABLETOPS

Avoid placing objects on the tables for a long time that may directly or indirectly cause stains, such as ashtrays, pots, vases and so on. Do not place hot objects directly on tables, such as tea lights and pans. Use coasters and table mats to prevent damage.

We have a range of products designed to clean and protect your furniture against weather fronts and wear and tear. (See Pages 15-16)

EVERYTHING TO
DELIVER PRODUCTS
OF THE HIGHEST
QUALITY.

OUR PRODUCT PROMISE

SUNS Lifestyle offers a reassuring warranty that stretches beyond legislation – with most products you have a 5-year warranty. If a piece of furniture or part should defect due to a manufacturing fault or fail due to regular domestic use, SUNS Lifestyle will either repair the defect at discretion, refinish the product or replace the defective part.

WARRANTY CONDITIONS

The warranty period starts from the moment of purchase your SUNS Lifestyle product and only applies to regular domestic use. The original receipt serves as a warranty certificate. Warranty relates to construction and material defects that are already present on delivery. Damage caused by improper or incompetent use (such as abnormal loads), deterioration by aggressive substances, improper maintenance, repairs by non-SUNS Lifestyle representatives, covering of furniture, incorrect assembly, as well as influences due to the properties of natural material and damage due to the not following or not correctly following the aftercare instructions, are excluded from the warranty agreement.

WARRANTY PROCEDURE

In the event of a defect, it is the responsibility of the buyer to return the product to SUNS Lifestyle, accompanied with (a copy of) the purchase receipt. SUNS Lifestyle will complete the warranty request with an event date, product code and description of the problem and submit it to the manufacturer, who will handle the correct completion of the warranty procedure.

REPLACEMENT

In case the model or colour is no longer available (for example, from an older collection), SUNS Lifestyle reserves the right to replace the defective piece of furniture with a similar product. Each replacement applies, in principle, to the defective part or piece of furniture, not to the entire set. Repair, refinishing or replacement does not affect the original warranty period.

FURTHER EXCLUSIONS

- Defects due to normal wear and/or extreme weather conditions
- For plastic: scratches due to use
- For aluminium: scratches due to use
- For wood: influences due to the properties of natural materials, such as cracking, tearing and discolouring
- For steel: rust formation from the inside due to, among others, condensation
- For textiles: less than 3mm shrinkage per linear meter, incorrect washing and slight discolouration, wear due to usage and reduced carrying capacity and thickness of the filling over time.
