There are two cases of installation.

Case 1: When pergola is not installed, please install the related accessories of the LED according to the plan A.  
Case 2: When pergola has been installed, please install the related accessories of the LED according to the plan B.

### Plan A -when pergola is not installed

- Please insert the input line of the transformer into the cavity of the post
- Pull the input line from the drainage outlet of the post
- Install the plate and skirt of the post after pulling out the input line
